

OVERVIEW

All personnel performing analyses of public drinking water in a certified laboratory must be certified by the State of Ohio Environmental Protection Agency (OEPA). The Microbiological Water Testing Course is the only course offered by the OEPA for those seeking training for bacteriological examination of drinking water in accordance to the methodologies approved by OEPA. Colilert 18 has been added to the MMO-MUG course.

INSTRUCTORS

Course instructors are laboratory personnel certified by OEPA for water microbiological determination. Course instructors have held certification for a minimum of three consecutive years. The course is offered under the technical supervision of OEPA personnel. This measure is to insure the course will be consistent with the requirements set forth by the OEPA. A survey officer from the OEPA will be in attendance on the last day of the course.

PREREQUISITES

This is a hands-on training course. Students should have basic laboratory skills. Although the course is designed for those needing training for certification, enrollment is open to anyone who desires this type of training. Class size is limited and OTCO and OEPA reserve the right to give preference to those required to attend the training course for certification requirements.

CONTACT HOURS

A total of 10 Contact Hours will be given for the MMO-MUG & Colilert 18. A total of 15 Contact Hours will be given for MMO-MUG & Colilert 18/Membrane Filter. A "Certificate of Completion" will be sent to each student who successfully completes the course.

OTCO is also an approved trainer for the following organizations:

- ◆ STATE BOARD OF SANITARIANS
- ◆ WORKFORCE DEVELOPMENT
